

Seeking Horticulturalist / Maintenance Supervisor or Manager

The Opportunity

Full-time position as Landscape Maintenance Supervisor or Manager (depending on previous experience) leading field service teams in delivering superior customer service to primarily high-end residential accounts and select commercial accounts.

Duties and Responsibilities

Client Service Quality

Client relationship management: Effective communications, timely problem resolution and value-added updates to proactively find, report and resolve issues before the client is aware issues in their garden.

Excellent In-the-Field technical knowledge: Broad range of plant species plus ongoing landscape maintenance elements, including irrigation, drainage, lighting, hardscape.

Proactive counsel to clients on improvements and corrections: Deliver “one step ahead” service. Effective at seeing problems or needs in the client landscape and proactively developing Additional Service Requests (ASRs) or Time-and-Materials proposals to address these issues.

Skillful self-management: Attention to detail at every level including service schedule management, client account budget management relative to team hours and supplies used on the job, successful management and retention of field service personnel.

Team Collaboration

Basic team management: Effective team deployment, including excellent communications, task management, crew scheduling, time and budget tracking.

Team leadership and personnel development: Oversee and ensure highest possible service quality delivery, including ongoing in-the-field employee skills evaluation, mentoring and training.

Peer relationship management: Network well with the other management level members of the company’s team, freely sharing expertise and collaborating to raise the overall performance of the company’s total service offering.

Other Basics

- Legal eligible to drive and work in the U.S.
- Spanish language skills highly desirable
- Studies and/or degrees and/or professional experience in Agriculture, Horticulture, or related fields.

Compensation: competitive, based on experience

Seeking Landscape Designer / Project Manager

THE OPPORTUNITY

GreenTree Landscaping—a leading LA landscaping firm—is actively recruiting for a landscape designer/project manager. This is a career development opportunity, with excellent room for advancement after the initial 6-12 month training period. The position emphasizes close mentoring with the senior-most members of GreenTree's team and the opportunity to conceptualize, plan and install landscape designs on prestige residential projects.

DETAILS

- Full time position.
- Candidates must have Landscape Design degree, certification and/or equivalent on-the-job experience.
- Responsible for **creating landscape designs** as apprentice/collaborator with senior GreenTree team members.
- Responsible for serving as the liaison—between clients, subcontractors and GreenTree management—to **project manage installation** of approved landscape designs.
- **CAD skills a requirement** for efficient and accurate design-to-build plan development.

ADDITIONAL REQUIREMENTS

- Ability to learn and implement top-rank service company procedures, systems and customer relationship management practices.
- Strong organizational skills and persistent attention to detail.
- Excellent communications skills: writing plus appropriate and timely responsiveness with clients, vendors, GreenTree management and GreenTree team members.

COMPENSATION

- \$40,000 - negotiable based on experience.
